

Biography: Beryl Thatcher

Air Permits Division
Texas Commission on Environmental Quality

Current Position

Beryl is currently the manager of the Chemical Section where she supervises staff responsible for reviewing federal and state permit applications for chemical plants and refineries.

Prior Experience and Education

Beryl received a Bachelor of Science in Environmental Engineering from the New Mexico Institute of Mining and Technology. Prior to joining the Texas Commission on Environmental Quality (TCEQ), Beryl was a consultant in the Air Quality section of a firm in California. She began working for the TCEQ in October 2000 as a permit engineer in the Operating Permits Section of the Air Permits Division. In January 2002, she transferred to the Technical Program Support Section where she was involved with many projects, including the compliance history rule, public notice, and standard permits and general operating permits development. She also served as the team leader for the Rules Development Team and prior to becoming manager, served as a team leader in the Chemical Section.
